

**INFORMATION ON CANCELLATION OF THE PROCEEDINGS
and
INFORMATION ON NO AWARDED CONTRACT**

Re. procedure for supporting the DAIMON Project within the scope related to the issues of sea-dumped chemical and conventional munitions for Instytut Oceanologii Polskiej Akademii Nauk (proceedings No. IO/ZN/5/2018)

- I. The Contracting Entity-Instytut Oceanologii Polskiej Akademii Nauk (Institute of Oceanology of the Polish Academy of Science) informs about cancellation of the proceedings under Chapter VIII (34)(b) of the Notice No. IO/ZN5/2018 due to the fact that a price of the only quotation submitted in the proceedings is above the amount which the Contracting Entity intends to allocate to finance the Contract.

Justification

Under Chapter VIII (34)(b) of the Notice No. IO/ZN5/2018 the Contracting Entity can cancel the proceedings without selecting a quotation if a price of the most favourable quotation is above the amount which the Contracting Entity intends to allocate to finance the Contract, unless the Contracting Entity may increase this amount to the price of the most favourable quotation.

The Contracting Entity allocated gross amount to finance the Contract: **406.648,00 PLN**.

The quotation submitted in the proceedings:

International Dialogues on Underwater Munitions (IDUM), 584 Leitches Creek, Leitches Creek, NS, Canada, B2A3Z7, net Value: **97.000,00 euro**, that is 418.312,50 PLN (exchange rate: 4,3125), with tax: 514.524,38 PLN, a remuneration maturity date: 30 days.

Due to the fact that the Contracting Entity cannot increase the amount which it intends to allocate to finance the Contract to the price offered by the Contractor, the proceedings have to be canceled under Chapter VIII (34)(b) of the Notice No. IO/ZN/5/2018.

- II. Due to the cancellation of the proceedings, the Contracting Entity informs that no Contract has been awarded in the proceedings for supporting the DAIMON Project within the scope related to the issues of sea-dumped chemical and conventional munitions for Instytut Oceanologii Polskiej Akademii Nauk (proceedings No. IO/ZN/5/2018).
